

Real Dirt Grown Coffee

Straight from their exotic countries of origin.

Yes, we do have a sense of humor but seriously, our coffee selections represent the very best of the coffee crop. We hand roast our coffee's in small batches. We'll even make a customized label for you (free). Just E-mail your JPEG image to kingdavidcoffee@mac.com

New iMac arrives at King David Coffee: Our very old eMac started to act up, so we picked up a new computer and did a complete migration of information from the old one. It all worked perfectly except for our newsletter templates. Hence, this rushed from scratch newsletter. We know you'll forgive us :) Order online today at www.kingdavidcoffee.com Remember, shipping is free!
